

This is an example PDF document. It contains multiple pages with text content. Each page is generated using the ReportLab library in Python. This document serves as a sample for adding hyperlinks to specific keywords. The keyword we will be linking to is 'video'. Feel free to explore the content and see how hyperlinks can enhance the document's interactivity. This is page 2 of the example PDF. The keyword 'video' appears here as well. Adding hyperlinks to keywords can be very useful in documents.
